

EDGE ISULATION TAPE

KAS®

TECHNICAL DATA SHEET - 20.08.019

Product Name	Edge Isulation Tape
Product Code	20.08.019
Type	Self Adhesive with PE Foil
Raw Material (TS EN 1264)	Closed cell polyethylene material - (PE)
Dimension (Thickness x Width)	5mm x 100mm
Length	20m
Specific Weight	25-28 kg/m ³
Heat Conduction Coefficient	0,045W/mK (40°C)
Operating Temperature	-40°C to +95°C
Reaction to Fire Class	E
Purpose of Usage	To prevent the heat produced in the space in underfloor heating systems from passing to neighboring spaces over heat bridges and to absorb the pressures that will occur as a result of the heating and expansion of the heating screed to be applied in accordance with the DIN 18560 standard.

100±2
